SCIENCE AS AN AGENT OF CHANGE AND COOPERATION

Round table organized under the aegis of the
RESEARCHERS' NIGHT 2026

Craiova, Sept 22, 2026

The University of Craiova, as a member of the ACROSS – European University of cross-border Knowledge Sharing University Alliance, is organizing the scientific event titled "Science beyond the borders and disciplines" from September 20 to 24, 2026. Alongside scientific presentations in the fields of Mathematics, Physics, Engineering, and Environmental Sciences, the event also includes a round-table discussion titled "Science as an agent of change and cooperation."

The round table is organized in collaboration with the Balkan Physical Union and the Romanian Physical Society, under the auspices of Researchers' Night. Approximately 60 researchers from 8 countries (France, Spain, Italy, Slovenia, Serbia, Bulgaria, Greece and Romania), ranging from early-stage to senior levels, will participate, with discussions taking the form of an intergenerational dialogue on the nature of research and innovation activities.
